EPC Group is an international group of companies specialized in process technology licensing, as well as in planning and constructing infrastructure projects and industrial plants. The business activities of EPC Group focus on chemicals, fine chemicals and pharmaceuticals, polymers and fibers, technical gases, biotechnologies and renewable energies. It was founded and is still managed by the Henkel family, which can look back on over 145 years of engineering tradition. Currently the group is represented by more than 300 qualified employees at eight locations in Germany.

From process development to planning and implementation, maintenance and modernization, EPC Group builds state-of-the-art systems to meet the world’s technical, economical and environmental challenges – staying true to its motto: „Ideas Inside“.
OUR EXPERTISE

- Polymers & Fibers
- Chemicals
- Pharmaceuticals & Fine Chemicals
- Biotechnologies
- Renewable Energies
- Engineering Services & Infrastructure

- Air Separation Units
- CO₂ Technologies
- Liquefaction Plants (e.g. Small Scale LNG-Plants)
- Special Applications for Technical Gases
- Engineering Services

- General Planning
- Building Construction, Architecture & Structural Design
- Technical Building Equipment
- Laboratory & Clean Room Planning
- Traffic & Civil Engineering
- Project Management

OUR ENGINEERING & PLANT CONSTRUCTION SERVICES

- Technical & Commercial Concept
- Feasibility Study
- Pre-Engineering
- Process Development
- (Extended) Basic Engineering
- Authority Engineering
- Detail Engineering

- Tendering / Awarding
- Supply of Equipment
- Construction / Installation
- Supervision
- Documentation

- Training
- Commissioning
- After-Sales Service / Maintenance
- Revamping

SELECTED CLIENTS & PARTNERS
