PLANT
CONSTRUCTION

The EPC Group is an internationally active engineering and plant construction company as well as provider of innovative technologies. The company's activities are focused on the planning and implementation of infrastructure projects and industrial facilities in the areas of chemicals and pharmaceuticals, polymers and fibers, technical gases, biotechnology as well as renewable energy. With over 140 years of engineering tradition the family business is now represented by over 300 highly motivated professionals at eight locations in Germany and one office in Russia.

We are currently looking for a new member to join our team in Alzenau:

CHEMICAL / PROCESS ENGINEER (M/F) in the plant construction sector

YOUR RESPONSIBILITIES

- Planning of chemical production plants
- Independent handling of projects during the different phases of concept, basic and detail engineering
- Development of process and plant descriptions
- Participation in the development of layouts and creation of project-specific cost estimates and calculations
- Editing of process and R&I charts
- Calculation of mass and energy balances as well as process designing of devices and machines
- Participation in the commissioning of plants
- Supporting the sales team in process-related preliminary considerations
- Supporting the creation of safety concepts

YOUR QUALIFICATIONS

- University degree (e.g. in the field of chemical engineering, process engineering, chemical technology, or similar qualifications)
- Working experience in processing and planning of similar projects in the chemical plant construction sector is an advantage
- Strong communicative skills and a high degree of customer orientation
- Ability to work in a team, flexibility and interest in varied tasks
- Ability to work independently, result-oriented and a profound sense of responsibility
- Willingness to travel for the implementation of projects
- Good knowledge of the MS-Office
- Working experience with CAD- and CAE-systems is an advantage
- Language skills in German, English and / or Russian are an advantage
