PLANT
CONSTRUCTION

The EPC Group is an internationally active engineering and plant construction company as well as provider of innovative technologies. The company's activities are focused on the planning and implementation of infrastructure projects and industrial facilities in the areas of chemicals and pharmaceuticals, polymers and fibers, technical gases, biotechnology as well as renewable energy. With over 140 years of engineering tradition the family business is now represented by over 300 highly motivated professionals at eight locations in Germany and one office in Russia.

We are currently looking for an:

PROJECT ENGINEER in E/I&C Technology

to join our team in Rudolstadt:

YOUR RESPONSIBILITIES

- Basic and detailed planning in cooperation with other plant engineering departments
- Preparation of technical datasheets for measuring equipment and points directories
- Development of customer-specific solutions
- Design of control systems as well as I&C-equipment (such as switch cabinets, actuators and sensors) in the chemical plant sector
- Design and / or upgrade of an I&C-infrastructure in the process facilities
- Preparation of SIL certificates and R&I diagrams
- Technical processing of procurement activities
- Preparation of specifications for installation and commissioning
- Coordination of external interfaces
- Commissioning and support in installation

YOUR QUALIFICATIONS

- University degree or further training with a certificate as "Master" or "Technician" (e.g. in the field of electrical engineering, or similar qualifications)
- Working experience in similar projects
- Strong communicative skills and a high degree of customer focus
- Ability to work in a team, flexibility and interested in varied tasks
- Ability to work independently, result-oriented and a profound sense of responsibility
- Willingness to travel to support project deployments
- Knowledge of relevant industry standards and regulations
- Working experience with CAD and CAE
- Language skills in German and English (Russian is a plus)
