ENGINEERING SERVICES

PLANT
CONSTRUCTION

The EPC Group is an internationally active engineering and plant construction company as well as provider of innovative technologies. The company's activities are focused on the planning and implementation of infrastructure projects and industrial facilities in the areas of chemicals and pharmaceuticals, polymers and fibers, technical gases, biotechnology as well as renewable energy. With over 140 years of engineering tradition the family business is now represented by over 300 highly motivated professionals at eight locations in Germany and one office in Russia.

We are currently looking for an

ENGINEERING TECHNICIAN for Construction Supervision Technical Building Services

to join our team in Rudolstadt:

YOUR RESPONSIBILITIES

- Coordination with the client
- Preparation of service specifications according to HOAI
- Technical Construction Supervision for Technical Building Services (heating, ventilation, sanitation, electrical systems)
- Development and organisation of pre-construction measures with regard to the construction phases and schedules
- Assistance in awarding of construction and delivery services
- Construction accounting and cost control
- Contact person for clients, approval authorities and planning partners
- Monitoring of costs and deadlines
- Valuation of supplements

YOUR QUALIFICATIONS

- University degree or further training with a certificate as "Master" or "Technician"
- Working experience in similar projects
- Experience in preparing and evaluating requests and corresponding programs
- Strong communication skills and a high degree of customer focus
- Ability to work in a team, flexibility and interested in varied tasks
- Ability to work independently, result-oriented and a profound sense of responsibility
- Knowledge of relevant industry standards and regulations, VOB (German Construction Contract Procedures) and procurement law
- Good knowledge of MS Office and Auto-CAD
